CRYPTOCREATURES WHITEPAPER

1. INTRODUCTION

1.1 OVERVIEW OF CRYPTO CREATURES

CRYPTO CREATURES is a remake of a classic tower defense game.

Crypto Creatures is a metaverse built on Ethereum and Binance smartchain. We seek to enable all users to proactively engage in the future of gaming and Non-fungible tokens by remaking a classic tower defense with blockchain and NFT elements incorporated.

In game users can earn tokens by killing creatures, creating maps, breeding creatures, and selling these as NFT's.

In turn Tower upgrades can be purchased that allow users to kill the toughest of creatures. Users can not only create their own maps and sell them on the marketplace but breed their own creatures.

The CC ecosystem is fueled by Greater mana potion (\$GMP) is the in-game currency, this is earned by killing creatures and or creating maps that can be sold on our NFT marketplace.

1.2 HOW TO GET STARTED

1.2.1 Purchase Towers: To start playing, purchase some basic towers using \$GMP, these towers will then kill creatures and earn \$GMP.

1.2.2 Purchase creatures: Purchase stronger creatures that will earn \$GMP once they reach the end of the map without dying.

1.2.3 Create your own Map: Create your own map that will be saved as an NFT which then can be sold on our marketplace

1.2.4 Breed creatures: Breed your own creatures with unique attributes. These can also be sold on the marketplace or used to earn \$GMP by running the gauntlet

1.2.5 Earn Daily Profits: By killing creatures, defeating maps with your strongest units, or creating unique maps that users can purchase from you.

2. GAMEPLAY

2.1 OVERVIEW

We will keep the simplistic gameplay style of traditional tower defense games. Making it easy to play and super addictive. Each game will be set on a map with a basic terrain and models. From here users can purchase towers and add them on designated spots to stop the creatures in their tracks. The initial game will be PVE and later PVP maps will be introduced, where users can attack other user's maps to see who has the best creatures and towers.

2.2 GAME ASSET: TOWERS, CREATURES & MAPS

2.2.1 Purchase Towers

In the current PVE gameplay users will need to purchase 2 towers to get started, these will serve as the base for any player to get started. The towers all vary in strength and abilities. Each creature that is killed by the user's tower earns him some \$GMP that can be used to buy better towers as players progress.

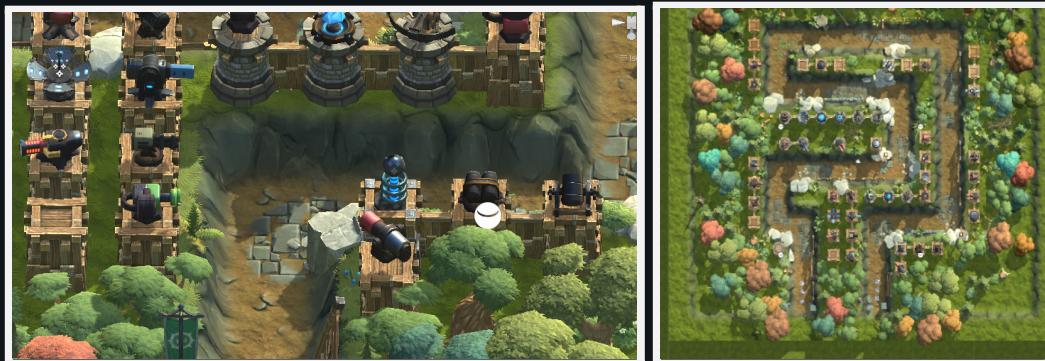

2.2.2 Purchase Creatures

As the development of CC progresses we will introduce PVP maps where users can attack other user's maps. In Order to do this users will need to purchase creatures they believe strong enough to run the gauntlet and survive. All creatures are available for purchase on our NFT marketplace. There will only be a set amount of NFT's minted per creature creating scarcity.

2.2.3 The Maps

Users can create their own maps using over 200 prefabs consisting of vegetation, trees, bushes and rocks. Many more will be added as the development progresses. These are then saved as NFTs and can be sold via our marketplace. Other users can also attack these maps in PVP gameplay.

2.3 MARKETPLACE

As explained above users can buy and sell their creatures via our Marketplace, we are also planning to introduce a unique feature where users can borrow creatures (As NFT assets) and pay the lender interest and they can in turn use these to attack maps in the PVP mode. We will introduce a fixed fee of 3% on our marketplace to fund the maintenance and development of Crypto creatures.

3. CRYPTO CREATURES TOKEN

3.1 IN GAME CURRENCY: \$GMP

The GMP Token is the CryptoCreatures metaverse token that allows players to buy and sell assets and engage in the game. There will be a fixed supply of 30,000,000 GMP.

\$GMP Token

Features:

In-Game Currency: \$GMP is used on our Marketplace for purchasing Towers, Creatures and Maps.

Play-to-Earn: Users are rewarded in the different game modes by killing creatures.

3.2 CRO COMPATIBILITY

All GMP tokens and NFTs of the Game would be stored on the CRONOS (Cronos Chain)

3.3. TOKEN SALES AND ALLOCATIONS

The Crypto Creatures' will have 30,000,000 total \$GMP. This is the hard cap and no other tokens will ever be issued.

Token Allocation

Entities Distributions	PVU Amount	Proportions
Total	30,000,000	100%
Seed Round & Token Sales	3,000,000	10%

Liquidity	250,000	8.3%
Lockup	26,750,000	93.33%

The Lockup

26,750,000 \$GMP tokens will be locked and vest over 36 months releasing 5% of allotted tokens monthly. These GMP tokens will be distributed as follows:

Development	50%
Marketing	15%
Team	20%

Development will be for expansion of the game, user rewards and liquidity.

The Crypto Creatures Team

The team tokens are locked for 36 months and released gradually at 5% each month. The team needs to be incentivized and have 'skin in the game'. This might be subject to change as the development progresses. A large part of this will be used to expand the team and further the development of the project.

Seed round

\$GMP tokens will be sold in a seed sale round that will be used to expand the team, marketing and general operation of the projects.

Community & Marketing

\$GMP tokens will be used for marketing that includes the use of youtube and twitter influencers and youtubers

PVE and PVP user rewards

\$GMP tokens will be used as rewards for users playing our various game modes. This will be paid out of the development portion to maintain the ecosystem and keep users coming back.

4. ROADMAP

March 2021 - October 2021:

Initial development, seed sales

October 2021 - December 2021:

Mainnet launch

Jan 2022 - March 2022:

Marketing push and further game developments

April 2022 - June 2022:

Mobile version of the game on Android and IOS

July 2022 - Onwards:

Development of a 'Steam' like app where the Crypto Creature's team and other users can host games that can be free to play or paid listings.

5. DISCLAIMER

You acknowledge and agree that there are numerous risks associated with purchasing **\$GMP**, holding **\$GMP**, and using **\$GMP** in the Crypto Creatures game. In the worst scenario, this could lead to the loss of all or part of the **\$GMP** which had been purchased. **IF YOU DECIDE TO PURCHASE \$GMP, YOU EXPRESSLY ACKNOWLEDGE, ACCEPT AND ASSUME THE FOLLOWING RISKS:**

1. **Uncertain Regulations and Enforcement Actions:** The regulatory status of **\$GMP** and distributed ledger technology is unclear or unsettled in many jurisdictions. The regulation of virtual currencies has become a primary target of regulation in all major countries in the world. It is impossible to predict how, when or whether regulatory agencies may apply existing regulations or create new regulations with respect to such technology and its applications, including **\$GMP** and/or the Crypto Creatures game. Regulatory actions could negatively impact **\$GMP** and/or the Crypto Creatures game in various ways. The Company, the Distributor (or their respective affiliates) may cease operations in a jurisdiction in the event that regulatory actions, or changes to law or regulation, make it illegal to operate in such jurisdiction, or commercially undesirable to obtain the necessary regulatory approval(s) to operate in such jurisdiction. After consulting with a wide range of legal advisors and continuous analysis of the development and legal structure of virtual currencies, a cautious approach will be applied towards the sale of **\$GMP**. Therefore, for the token sale, the sale strategy may be constantly adjusted in order to avoid relevant legal risks as much as possible.
2. **Inadequate disclosure of information:** As at the date hereof, the Crypto Creatures game is still under development and its design concepts, consensus mechanisms, algorithms, codes, and other technical details and parameters may be constantly and frequently updated and changed. Although this white paper contains the most current information relating to the Crypto Creatures game, it is not absolutely complete and may still be adjusted and updated by the Crypto Creatures team from time to time. The Crypto Creatures team has no ability and obligation to keep holders of **\$GMP** informed of every detail (including development progress and expected milestones) regarding the project to develop the Crypto Creatures game, hence insufficient information disclosure is inevitable and reasonable.
3. **Competitors:** Various types of decentralised applications and networks are emerging at a rapid rate, and the industry is increasingly competitive. It is possible that alternative networks could be established that utilise the same or similar code and protocol underlying **\$GMP** and/or the Crypto Creatures game and attempt to re-create similar facilities. The Crypto Creatures game may be required to compete with these alternative games, which could negatively impact **\$GMP** and/or the

- Crypto Creatures game.
4. **Loss of Talent:** The development of the Crypto Creatures game greatly depends on the continued cooperation of the existing technical team and expert consultants, who are highly knowledgeable and experienced in their respective sectors. The loss of any member may adversely affect the Crypto Creatures game or its future development. Further, stability and cohesion within the team is critical to the overall development of the Crypto Creatures game. There is the possibility that conflict within the team and/or departure of core personnel may occur, resulting in negative influence on the project in the future.
 5. **Failure to develop:** There is the risk that the development of the Crypto Creatures game will not be executed or implemented as planned, for a variety of reasons, including without limitation the event of a decline in the prices of any digital asset, virtual currency or \$GMP, unforeseen technical difficulties, and shortage of development funds for activities.
 6. **Security weaknesses:** Hackers or other malicious groups or organisations may attempt to interfere with \$GMP and/or the Crypto Creatures game in a variety of ways, including, but not limited to, malware attacks, denial of service attacks, consensus-based attacks, Sybil attacks, smurfing and spoofing. Furthermore, there is a risk that a third party or a member of the Company, the Distributor or their respective affiliates may intentionally or unintentionally introduce weaknesses into the core infrastructure of \$GMP and/or the Crypto Creatures game, which could negatively affect \$GMP and/or the Crypto Creatures game. Further, the future of cryptography and security innovations are highly unpredictable and advances in cryptography, or technical advances (including without limitation development of quantum computing), could present unknown risks to \$GMP and/or the Crypto Creatures game by rendering ineffective the cryptographic consensus mechanism that underpins that blockchain protocol.
 7. **Other risks:** In addition, the potential risks briefly mentioned above are not exhaustive and there are other risks (as more particularly set out in the Terms and Conditions) associated with your purchase, holding and use of \$GMP, including those that the Company or the Distributor cannot anticipate. Such risks may further materialise as unanticipated variations or combinations of the aforementioned risks. You should conduct full due diligence on the Company, the Distributor, their respective affiliates, and the Crypto Creatures team, as well as understand the overall framework, mission and vision for the Crypto Creatures game prior to purchasing \$GMP.
